1. Uvod

This project will be the result of joined activities with partners who have been participating in Erasmus+ mobility -structured course “Innovative teaching methods” Tenerife May 2021. Nine months project for students 11-15 years old.

By doing the project students will become aware of the importance of environmental activities which will reduce the negative impacts of climate change, connecting outdoor learning with environmental activities. They will learn about the key competencies of Project Based Learning by exploring the effects and consequences of climate change.

2. My country, my town, my school

Lithuania

Lithuania is located in Northern Europe, on the Eastern coast of the Baltic sea. The capital of Lithuania is Vilnius. Lithuania is part of the European Union and NATO. Currently, 2.7 million people live here. Lithuania may be a small country, but it has a deep history.

Some interesting facts about Lithuania:
<file:///C:/Users/ASUS/Downloads/facts-about-Lithuania.pdf>

A video of Lithuanias breathtaking views:
<https://www.youtube.com/v=oYuP3VDSrQk>

This is my town Omiš, Croatia.

My school

Add item

Taurage "Versmes" gymnasium. Lithuania

Taurage "Versmes" gymnasium is my school, full of great teachers and friendly people. On a lunch break, after students have eaten, they can play chess, table tennis or just chill on comfortable couches (by the way, we have two lunch breaks). Our gymnasium is pretty small, but with homey environment, with most students remember many years after ending school.

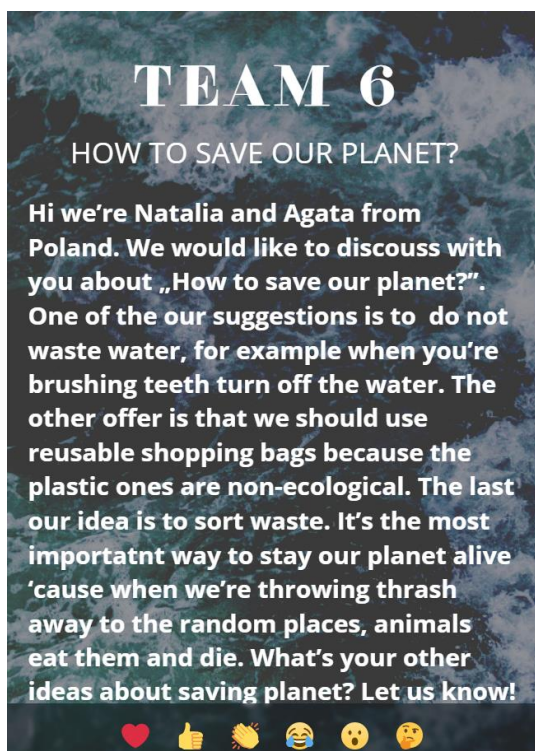

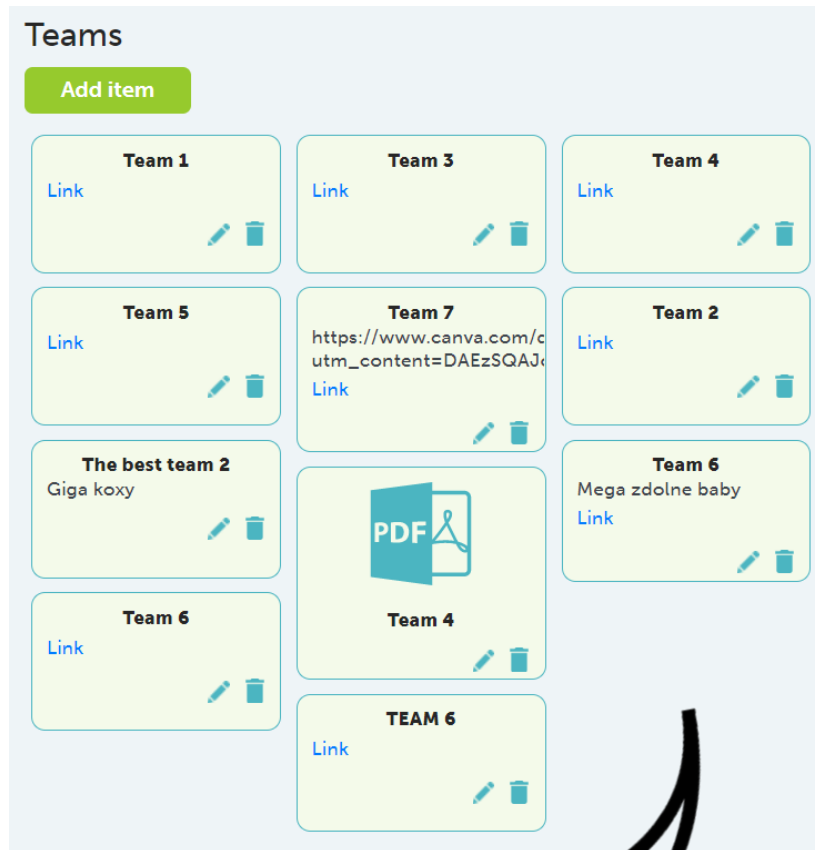

Mikołaj Kopernik school, Cieszyn, Poland

Mikołaj Kopernik school is my high school, there are a lot of students in it, so it is easy to meet new people. The teachers are very nice and conduct lessons in an interesting way. During breaks, students often buy food and drinks from vending machines and meet each other. Our school also organizes a lot of competitions and events.

3. PBL-PROJECT BASED LEARNING

Collaborating in international groups

4. Green December

Christmas Tree decorated with toys made from recyclable materials

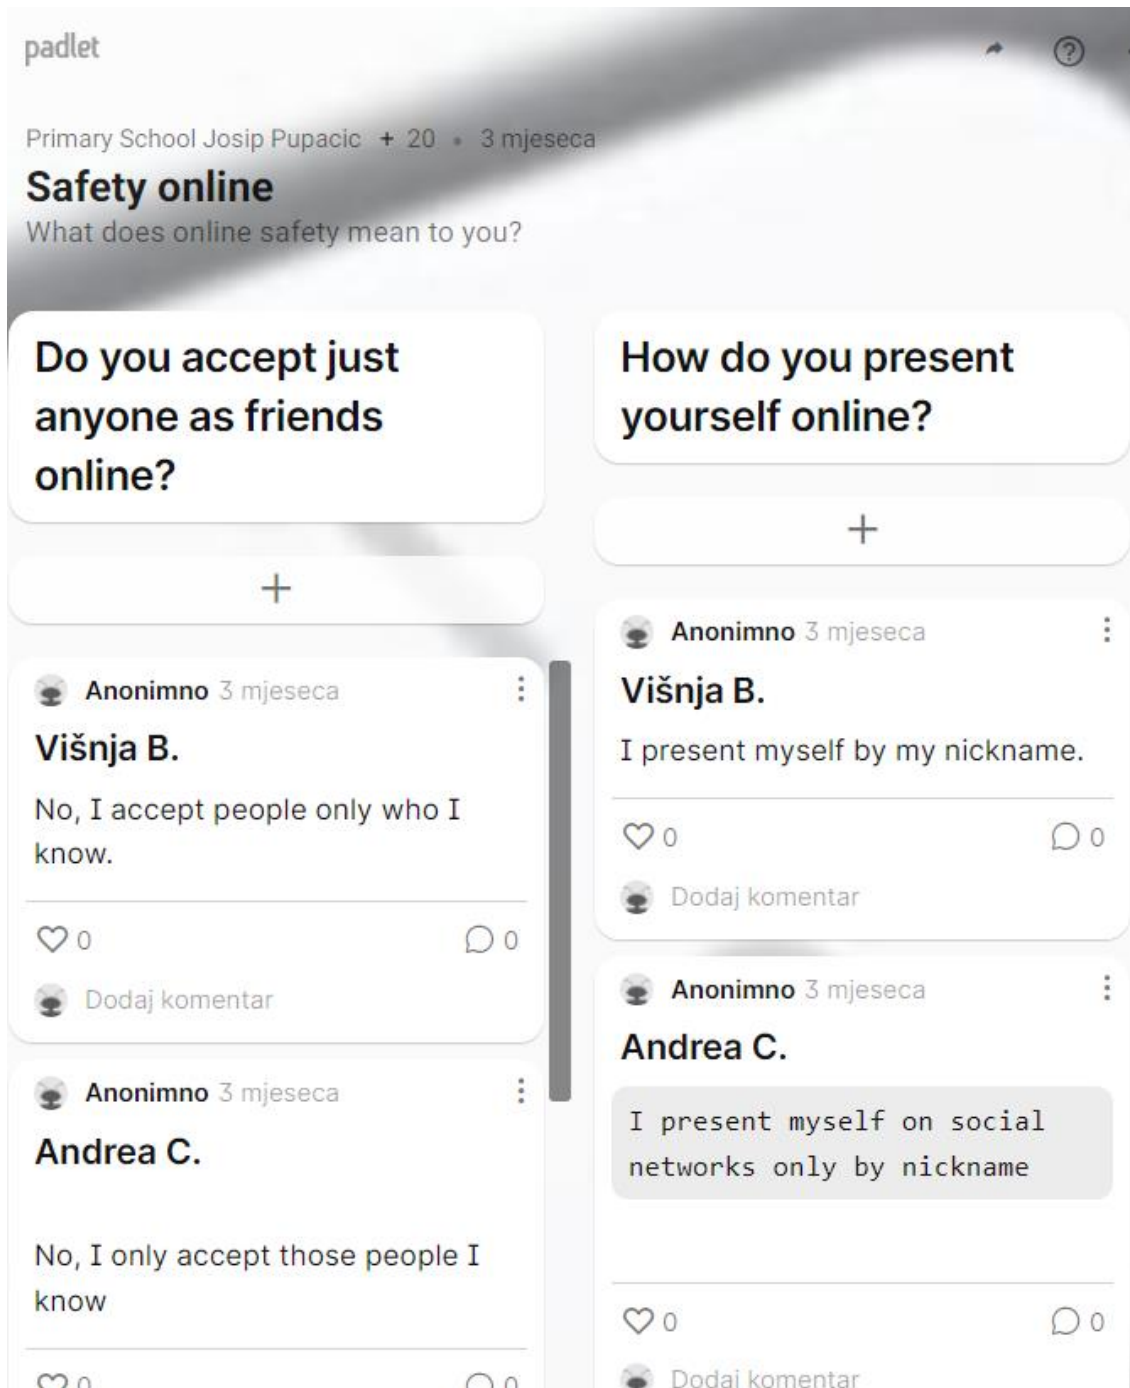

Merry Christmas!

5. January - Safety online

What does online safety mean to you?

(via padlet)

6. February - Climate change in my country

Endangered species in my country by Primary School Josip Pupacic
